**THE CEMENT CONCRETE.**—The statement in the JOURNAL that concrete cement for the city hall foundations should be in proportion of one part cement to three parts gravel, was intended for a finishing course. Much less cement will make a durable foundation. It is stated that the cement and gravel are mixed loose. A barrel of cement makes 12 buckets of loose cement. A barrel of gravel makes 9 bucketsful. The specifications require one to four, while heavy buildings at Portland and San Francisco are built with one to seven. The Holman block is resting on concrete one to six. The city hall walls with concrete could be made much lighter than of stone and stand the strain just as well. As the contract now stands they will be just as heavy as originally intended for stone work.

**GREAT SUCCESS.**—The Presbyterian picnic at Morningglade was a "howling success," if that expression can be used with propriety of so conservative a class, who are not conservative at all when it comes to having a good time. It is estimated 1200 to 1500 participated. The cars did not get all the people back until 11:30 at night, and then only having people climb up on the roof like monkeys and some straddling the trolley pole or hanging onto the eaves by their toe nails. Ice cream, soda, meals and money flowed like water, and whatever the Presbyterians undertake seems to go. The speaking and singing were excellent and the fame of this royal parklike suburb is established for moonlight picnics.

**KICKED OFF.**—Geo. Parks got on the overland train at Eugene this morning in an intoxicated condition. Wick Huff, the conductor, asked for his fare, as he was trying to beat his way. He let him ride to Harrisburg where he ordered him off, but he stayed on. A mile below Harrisburg he stopped the train and put him off. Then he tendered his fare and it was not received. The peanut man tackled Parks and gave him a thrashing and kicked him off and threw his dollar to him.

**THE STATES PICNIC.**—It comes July Fourth. It is a basket picnic. After the exercises go and sit down and eat by families, by states, or where you like. It is thought best for all to register by states—the state where you came from to Oregon. Full program with speakers will appear Monday. A meeting of the general committee and the committee from each state will be held at Hotel Willamette Monday July 3, at 7:30. Let all attend.

**CATTLE POISONED.**—During the past week Jesse Steiwer, of Jefferson, lost a dozen head of Extra Jersey dairy cows. Some old white lead cans which had been lying about for several years were thrown out where the cattle had access to them, and it is believed they were poisoned from licking the old paint. Few people know it, but white lead is fatal to live stock. Mr. Steiwer's loss will aggregate nearly a thousand dollars.

**ANOTHER BRICK.**—The contract has been signed for another brick building on Commercial street. The contract was made by Thomas Burrows with Plummer & Ault, the architect being W. D. Pugh. The new brick will occupy the site of Mr. Burrows' wooden building in which he has his grocery store, and it will be a continuation of the Paul Oberheim block, with the same style front.

**HALF FARE.**—The S. P. railroad will sell half-fare round trip tickets for the Salem races from all points between Portland and Eugene. The tickets will be on sale beginning the 4th and will be good to return until the 8th.

THE JOURNAL does not wish to stigmatize the whole Democratic party of this city and county as repudiators. But such men as Dan Fry, Dr. Golden, John Gray, Mart. Rowley, Mr. Flagg and some other party managers should realize that their chances of getting appointments to positions of public trust and responsibility are nearly small as long as they leave legitimate campaign bills unpaid.

EVERY TIME.—To score twenty-five every time is a great record and in one Salem grocery house that is what they try to do. Twenty-five cents worth for 25 cts at Clark & Eppley's Court street grocers.

## NOVELTIES.

The arrow brooch of gold set with diamonds is again seen in leading jewelry stores.

There are indications that wreath forms and simple gold circlets set with diamonds or other precious stones will be popular designs for brooches this year.

Dark violets with white apple blossoms or pink tinted peach blossoms and pansies, encircled by wreaths of forget-me-nots or daisies, are among the many tasteful combinations in enameled floral jewelry.

Wreaths frequently appear in stones alone, enamel being in such cases discarded. Pearls and olivines—the green stones portraying foliage and the pearls representing berries—are examples of the variation of a prevalent design.

The swan is the bird now most prominent in jewelry. Its shapely suggestiveness is seen everywhere. A new rack for envelopes and paper of perforated silver is most gracefully designed by having the line of the divisions swan shaped.

Enamel and gold combinations are plentifully used. Besides numerous individual blossoms and floral clusters, enameled brooches in the fainter tints are inlaid with designs of flowering sprays carefully reproduced in gold and colored stones.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. "Away! Away! There is danger here! A terrible phantom is bending near; With no human look, with no human breath, He stands beside thee—the haunter—Death!"

If there is one disease more than another that comes like the unbidden guest at a banquet, it is catarrh. It insidiously steals upon you, "with no human breath," it gradually, like the octopus, winds its coils about you and crushes you. But there is a medicine, called Dr. Sage's Catarrh Remedy that can tear you away from the monster, and turn the sythes' point of the reaper. The makers of this wonderful remedy offer, in good faith, a standing reward of \$500 for an incurable case of catarrh in the head.
